Subject: Dave Spalding - Wind Plus - Update

Yesterday – Thursday, July 17, we had a long conference call with Union Fenosa, the fourth largest utility in Spain and now, a very active “Newcomer” to the Renewable Energy business worldwide. They are **very impressed** with our combined solar thermal & wind West Texas project.

Union Fenosa offered to purchase a 50% (plus) interest in the NDR Project One LP – A written response to their E-Mail detailing structuring will be sent by WP this weekend. They have a Board meeting scheduled late next week. Attached is a presentation on Union Fenosa.

Next week, we have meetings with some more Oil & Gas companies and another meeting with the South Texas utility. The South Texas group has there B of D meeting on Thurs. July 24.

I expect detailed LOI’s to be completed within a few weeks. After the signing of the LOI’s...the door for new promissory notes holders will be closed.

Act now or kick yourself hard.

Thank You,

Dave Spalding
